

Finance Buddy

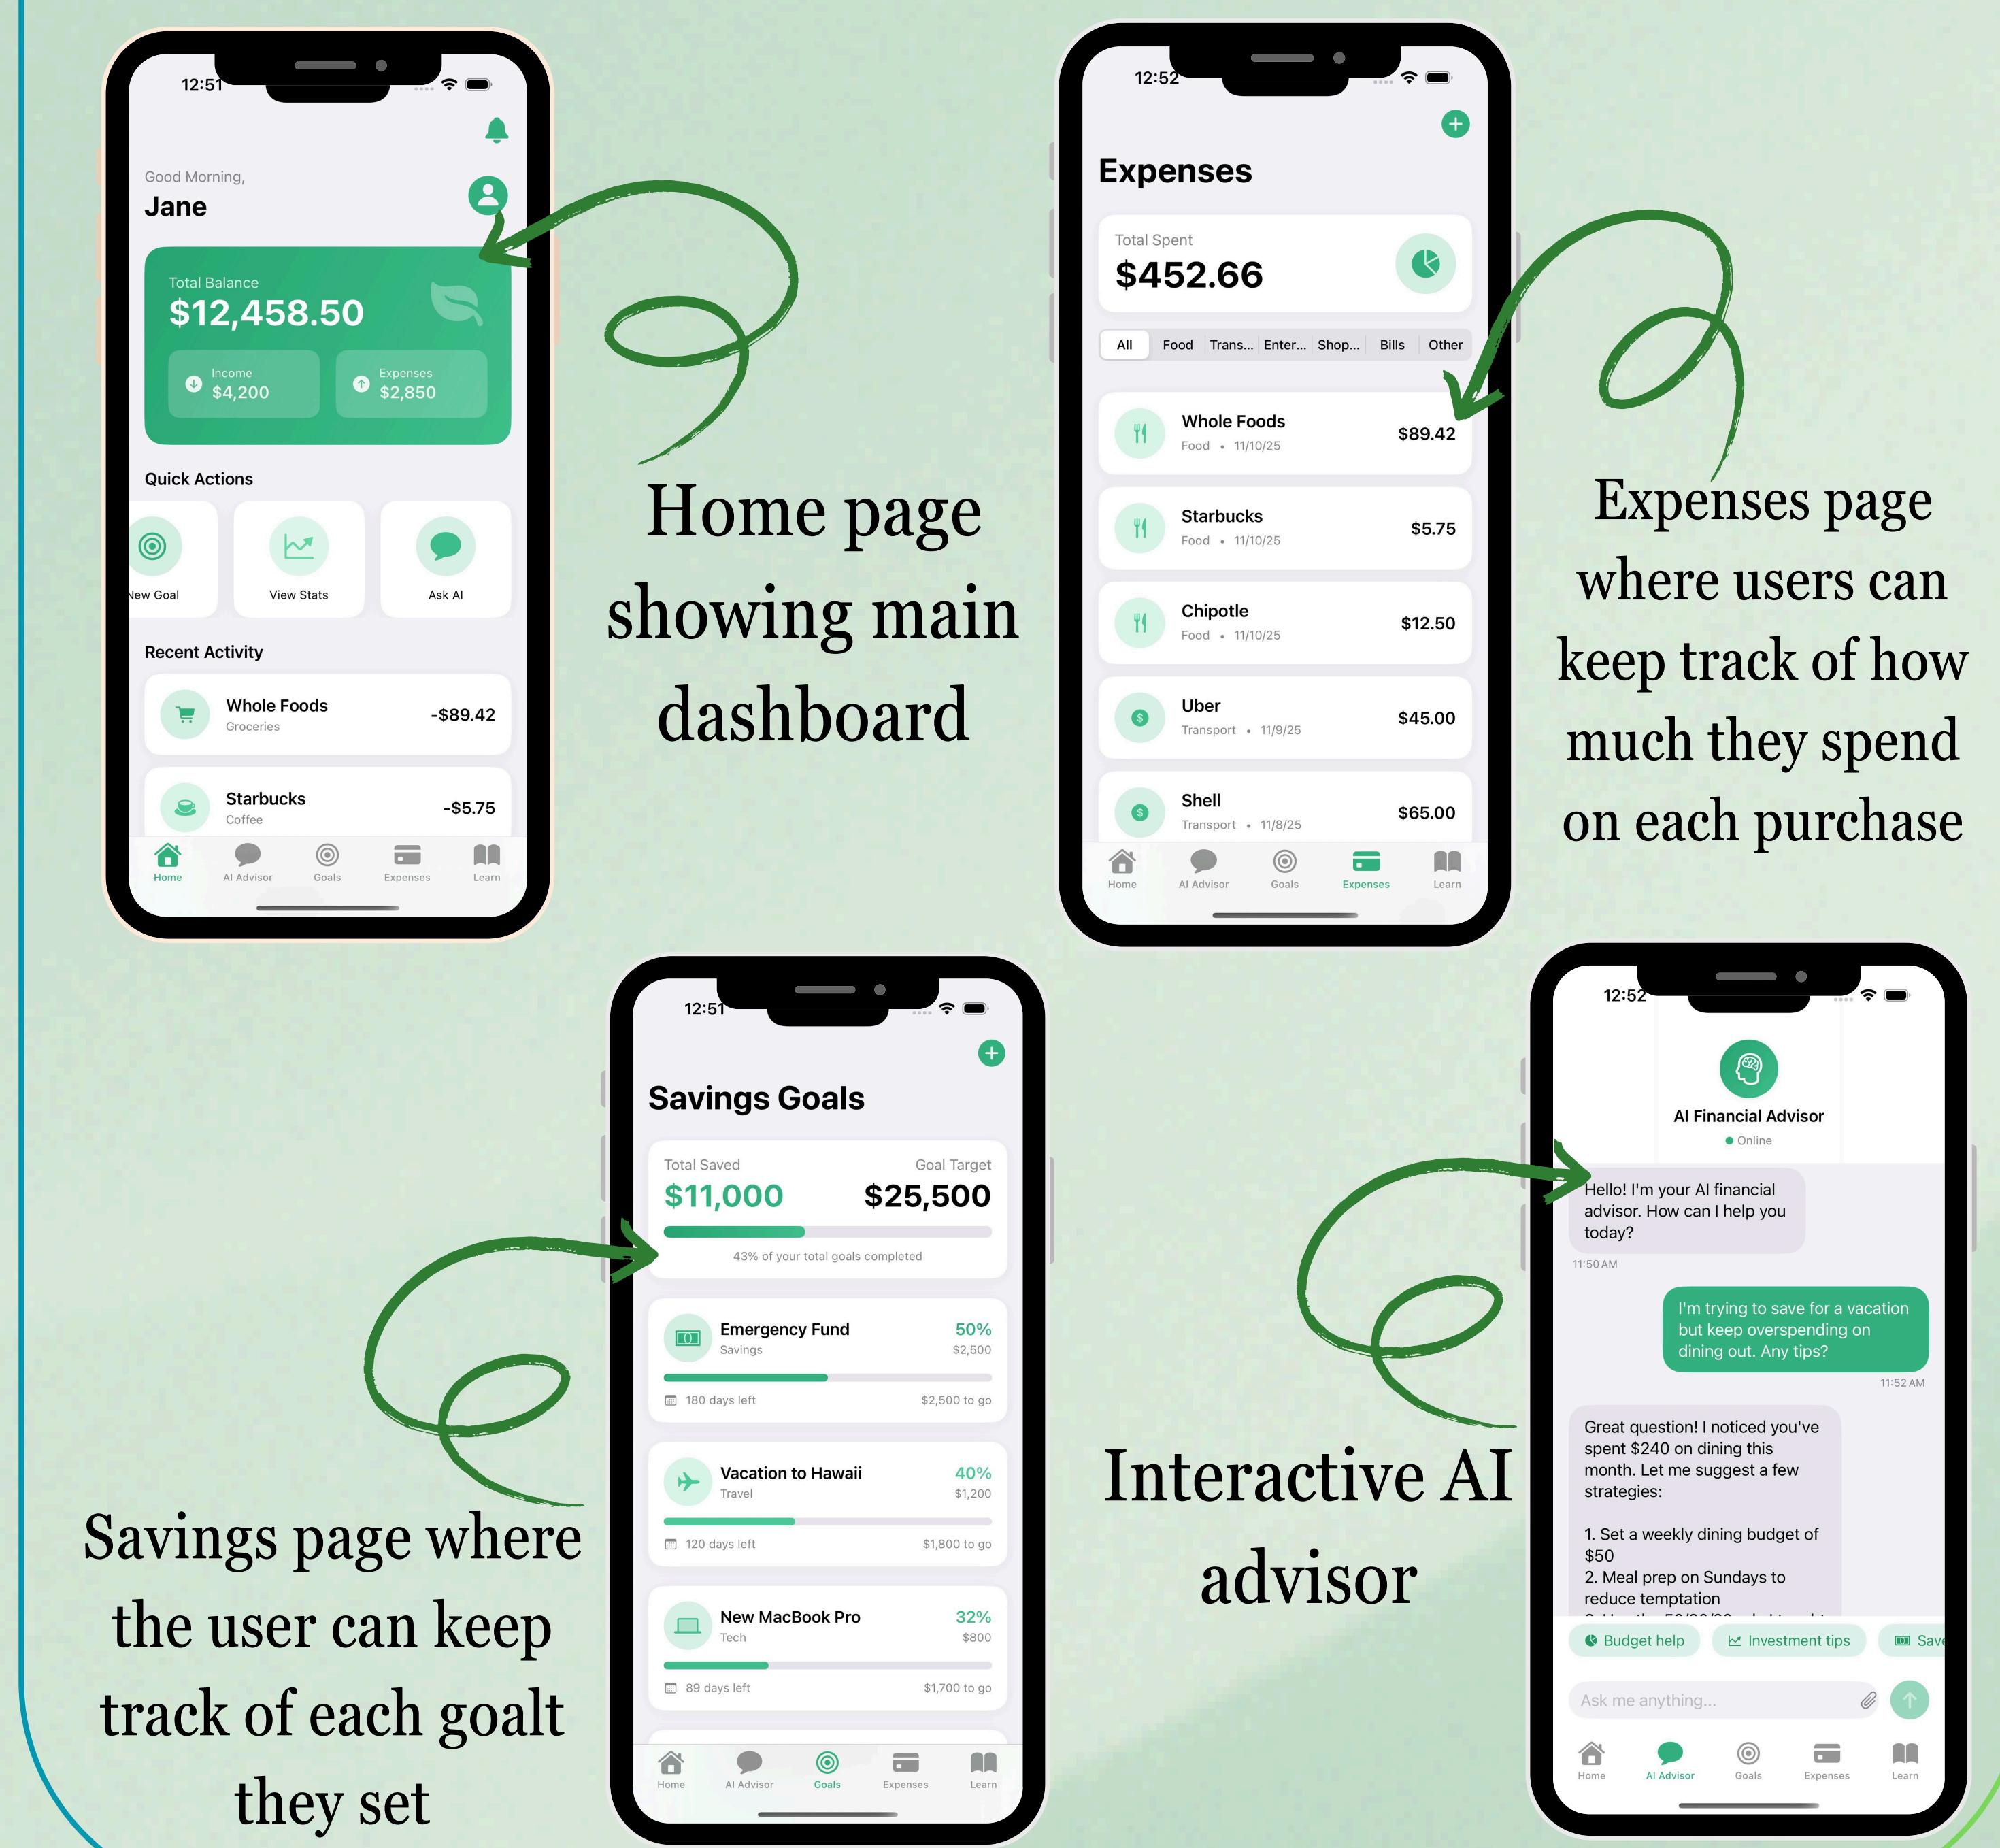

Why Finance Buddy

An easy way for users to:

- Learn how to become financially literate
- Set financial goals
- Ask questions about their financial situation
- Gain insight into how they are spending their money
- Get notifications about how to save money given their unique spending patterns

Key Functionalities

Purpose

Finance Buddy is an iOS mobile application that helps young adults take control of their financial future through:

- Smart Expense Tracking: Automatically categorize and monitor spending with AI-powered insights
- Goal-Based Savings: Set and track financial goals with visual progress indicators
- Personalized Learning: Interactive financial literacy lessons tailored to your experience level
- AI Financial Advisor: 24/7 conversational AI assistant that understands your financial journey

Getting Started

1. Set up an account
2. Complete the onboarding questionnaire
3. Set financial goals
4. Log spending
5. Get notified on your goal progress
6. Save money!

Learning Feature

Level up your money skills with bite-sized lessons, build streaks, and compete with friends to climb the Finance Buddy leaderboard.

It's not just about saving money, but gaining financial literacy skills for life.
